B. Electric Service

A tariff of monthly rates will be charged for each meter installed in the electric distribution system of the City. One meter shall be installed to service one user. If additional buildings are required for a given user, they shall be interconnected by the customer to obtain one meter. If additional meters and services are requested by the customer, each shall be treated as a separate customer. It will be at the City’s sole discretion to determine what installation of service is most appropriate and beneficial to the system as a whole, which decision will be based on, but not limited to, proximity, continuity, similarity and compatibility of service.

The rate schedule for users is established through City Code: **§ 237-3.2, § 237-3.3, § 237-3.4, § 237-3.5, § 237-3.6, § 237-3.7, § 237-3.8.**

C. Sewer Service

The use charge shall be applied separately to each individual user having a separate water meter which measures water contributed to or discharged into the sanitary sewerage system and shall be determined by the water meter reading for water furnished by the Water Department of the City or by privately owned water supply which may contribute to or discharge into the sanitary sewerage system. In the case of an unmetered water supply, the quantity of water used and discharged into the sanitary sewerage system shall be determined to the satisfaction of the Council and at the expense of the owner of the unmetered water supply. If the quantity of unmetered water discharged into the sanitary sewerage system is estimated by the Council to be ordinarily in excess of the amount permitted to be used under the minimum charge as applied to said user, the Council may require such water supply to be metered at the expense of the owner or user.

The rate schedule for users is established through City Code: **§ 325-8.1, § 325-8.2, § 325-8.3.**
